Applicants' amendment and response filed June 18, 2008 have been received and entered.

Claims 24-28 are withdrawn from consideration as being drawn to the non-elected invention (37 CFR 1.142(b)).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-12, 15, 16 and 19-23 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Phillips (6,645,988 B2) in view of Shimizu et al. (6,328,994 B1), all of record, for reasons for record, as set forth in the previous Office action dated March 13, 2008 at pages 2-4 as applied to claims 1-12, 15, 16 and 19-23.

forming water insoluble polymer are not persuasive since the applicants' examples contain ethylcellulose and HPMC (hydroxypropylmethyl cellulose) in various compositions (See Examples 11-13). Are the polymers (water-soluble or water-insoluble)?

The rejection made under 35 USC 103(a) is adhered to.

Claims 1-12, 15, 16 and 19-23 are not allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
